Candidate Statement

(maximum 200 words)

I was on the previous Committee and felt the passion and energy that the HOTC feels for Auckland CBD. I wish to be a part of that passion for Auckland and contribute to it becoming the best it can be. I have significant associations with the CBD and appreciate the challenges business is facing in particular retailers. I believe my background and experience in retail can help revive and sustain retail in the CBD. This is what sits at the heart of any commercial district. Shopping! and what is shopping without shops. Our retailers need support and I am well placed to advocate for them.
